## PROJECTS

### Ready S.E.T.T. Eat! — Coding Team project

<https://tkuebler12.github.io/ProjectOne/>

Worked in a four-person team to develop an application using JQuery, web APIs and Materialize. Our app returns ingredients of a searched recipe and an ingredient's nutritional values. Was part of a team working on user-interface/experience.

### Javascript Quiz! — Javascript quiz run on Javascript

[https://tianwes.github.io/Code\\_Quiz\\_using\\_Web\\_APIs/](https://tianwes.github.io/Code_Quiz_using_Web_APIs/)

Used Javascript to create a fun, timed quiz all about Javascript. It keeps player's scores in local storage.

### Work-Day Planner — JQuery 9-hour Planner

<https://tianwes.github.io/JQuery-API-Work-Day-Planner/>

Coded with JQuery to highlight the current time block of a daily-schedule, used local storage to save users' to-do's and Luxon for tracking the date and time.
